PROGRAMME REPORT

PROGRAMME NAME	A One Day Seminar on Precision Medicine and Biomarkers in Clinical Research.
RESOURCE PERSON	Mr.V. Umashankar M.Pharm(Ph.D) Associate professor, Avanthi institute of pharmaceutical sciences, Tagarapuvalasa, PHONE NO: 9885498549 Email id:sankarvs75@gmail.com
DATE OF ACTIVITY	21.07.2022
PROGRAMME COORDINATOR	Dr.Swathi Nageswara M.Pharm,Ph.D Sri Sivani College of Pharmacy
VENUE	SSCP SEMINAR HALL
ORGANISED BY	SRI SIVANI COLLEGE OF PHARMACY
NO OF PARTICIPANTS	72

OBJECTIVE OF THE PROGRAMME

The objective of the one-day seminar on Precision Medicine and Biomarkers in Clinical Research is to provide participants with a comprehensive understanding of the role of precision medicine and biomarkers in advancing clinical research and healthcare. The seminar aims to explore the latest developments, challenges, and opportunities in these fields and equip attendees with the knowledge and skills necessary to integrate precision medicine and biomarker-driven approaches into their research and clinical practice.

Mr.V. Umashankar interacting and delivered his talk to students on 21.07.2022

OUTCOMES OF PROGRAMME

1. **Enhanced Understanding of Precision Medicine:** Participants will gain a deep understanding of the concept of precision medicine, including its principles, methodologies, and applications in clinical research.
2. **Biomarker Identification and Utilization:** Attendees will learn about the importance of biomarkers in healthcare and how to identify, validate, and utilize biomarkers in clinical research for patient stratification, disease diagnosis, and treatment selection.
3. **Integration of Genomics and Personalized Medicine:** The seminar will cover the integration of genomics and other omics data into clinical practice, helping participants appreciate how genomic information can inform treatment decisions.
4. **Clinical Trial Design:** Participants will be equipped with knowledge about designing clinical trials with a focus on biomarker-driven approaches, including patient selection, endpoint determination, and statistical considerations.
5. **Regulatory and Ethical Considerations:** Attendees will become familiar with the regulatory landscape and ethical considerations related to precision medicine and biomarker research, ensuring compliance with relevant guidelines.
6. **Practical Case Studies:** The seminar will include real-world case studies and examples from clinical research and practice to illustrate the impact and benefits of precision medicine and biomarkers.

7. Updated Knowledge: Attendees will leave the seminar with up-to-date knowledge on the rapidly evolving field of precision medicine and biomarkers, ensuring they remain current in their practice.
8. Actionable Insights: Participants will acquire practical insights and strategies to implement precision medicine and biomarker-driven approaches in their clinical research and healthcare settings.

By the end of the seminar, attendees should be well-equipped to contribute to the advancement of precision medicine and biomarker research, ultimately improving patient outcomes and healthcare delivery.

PROGRAMME REPORT

PROGRAMME NAME	A One Day Seminar on Advancements in Analytical Methods for Herbal Research.
RESOURCE PERSON	Mr. K VARAPRASAD RAO Associate professor, Department of pharmaceutical analysis, Vignan institute of pharmaceutical technology, Visakhapatnam. PHONE NO: 9440080424 Email: varaprasadvpt@gmail.com
DATE OF ACTIVITY	08.08.2022
PROGRAMME COORDINATOR	Dr. Swathi Nageswara M.Pharm, Ph.D Sri Sivani College of Pharmacy
VENUE	SSCP SEMINAR HALL
ORGANISED BY	SRI SIVANI COLLEGE OF PHARMACY
NO OF PARTICIPANTS	67

OBJECTIVE OF THE PROGRAMME

The objective of the one-day seminar on "Advancements in Analytical Methods for Herbal Research" is to provide a platform for researchers, academicians, and industry professionals to discuss and explore the latest developments in analytical techniques applied to herbal research. The seminar aims to:

- Introduce latest analytical techniques in herbal research.
- Share insights on herbal compound identification and quantification.
- Foster interdisciplinary collaboration among researchers.
- Address regulatory standards for herbal products.
- Explore innovative applications of analytical methods.
- Facilitate integration of methods into industry practices.

OUTCOMES OF PROGRAMME

By the end of the seminar, participants will be able to:

- **Enhanced Understanding of Analytical Techniques:** Participants will gain insights into the principles, capabilities, and limitations of modern analytical methods employed in herbal research.
- **Improved Quality Control Measures:** Researchers and industry practitioners will learn how to implement advanced analytical techniques to ensure the consistency, purity, and potency of herbal products.
- **Identification of New Research Avenues:** The seminar will inspire attendees to explore new research directions, potentially leading to the discovery of novel bioactive compounds or therapeutic applications of herbal extracts.
- **Networking and Collaboration:** Participants will have the opportunity to interact with experts and peers, fostering collaborations that can contribute to multidisciplinary research projects.
- **Informed Regulatory Compliance:** Attendees will gain insights into regulatory standards for herbal products, aiding them in conducting research that aligns with legal and safety requirements.
- **Industry Innovation:** Industry professionals will be equipped with knowledge about innovative analytical methods, enabling them to develop higher quality and more effective herbal products.

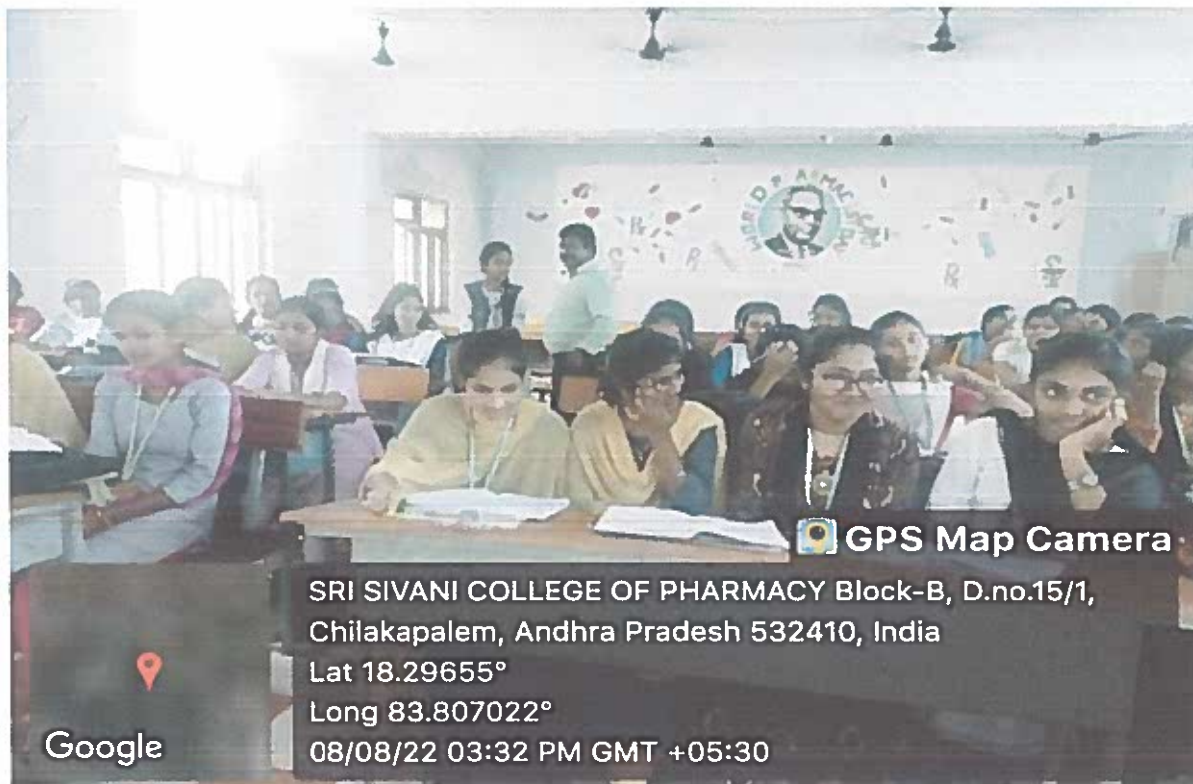

Overall, the seminar aims to bridge the gap between traditional herbal knowledge and modern analytical advancements, promoting evidence-based herbal research for the benefit of both academia and industry.

OBJECTIVE OF THE PROGRAM

The objective of the one-day seminar on "Advancements in Analytical Methods for Herbal Research" is to provide a platform for researchers, academicians, and industry professionals to discuss and explore the latest developments in analytical techniques applied to herbal research. The seminar aims to:

- ❑ Introduce latest analytical techniques in herbal research.
- ❑ Share insights on herbal compound identification and quantification.
- ❑ Foster interdisciplinary collaboration among researchers.
- ❑ Address regulatory standards for herbal products.
- ❑ Explore innovative applications of analytical methods.
- ❑ Facilitate integration of methods into industry practices.

OBJECTIVE OF THE PROGRAMME

The objective of the one-day seminar on Computational Intelligence in Pharmaceutical Research and Development is to educate participants about the crucial role of computational intelligence techniques in accelerating and optimizing various aspects of pharmaceutical R&D. The seminar aims to highlight the latest trends, tools, and applications in this field and provide attendees with insights into how computational intelligence can enhance drug discovery, development, and optimization processes.

Keynote Speaker: Dr. Kranthi Kumar

OUTCOMES OF PROGRAMME

- Understanding Computational Intelligence
- Accelerated Drug Discovery
- Drug Design and Optimization
- Personalized Medicine
- Data Integration and Analysis

- Drug Safety and Adverse Event Prediction
- Optimizing Clinical Trials
- Regulatory Compliance
- Case Studies and Practical Applications
- Networking Opportunities
- Future Directions

By the end of the seminar, participants should be well-prepared to leverage computational intelligence approaches to enhance their contributions to pharmaceutical research and development, ultimately leading to the discovery of safer and more effective drugs.

ORGANISED BY	SRI SIVANI COLLEGE OF PHARMACY
NO OF PARTICIPANTS	66

OBJECTIVE OF THE PROGRAMME

The objective of the one-day seminar on "Translating Nanotechnology Innovations in Pharma Research" is to facilitate a comprehensive understanding of the applications of nanotechnology in pharmaceutical research and to explore the potential for translating these innovations into practical solutions. The seminar aims to:

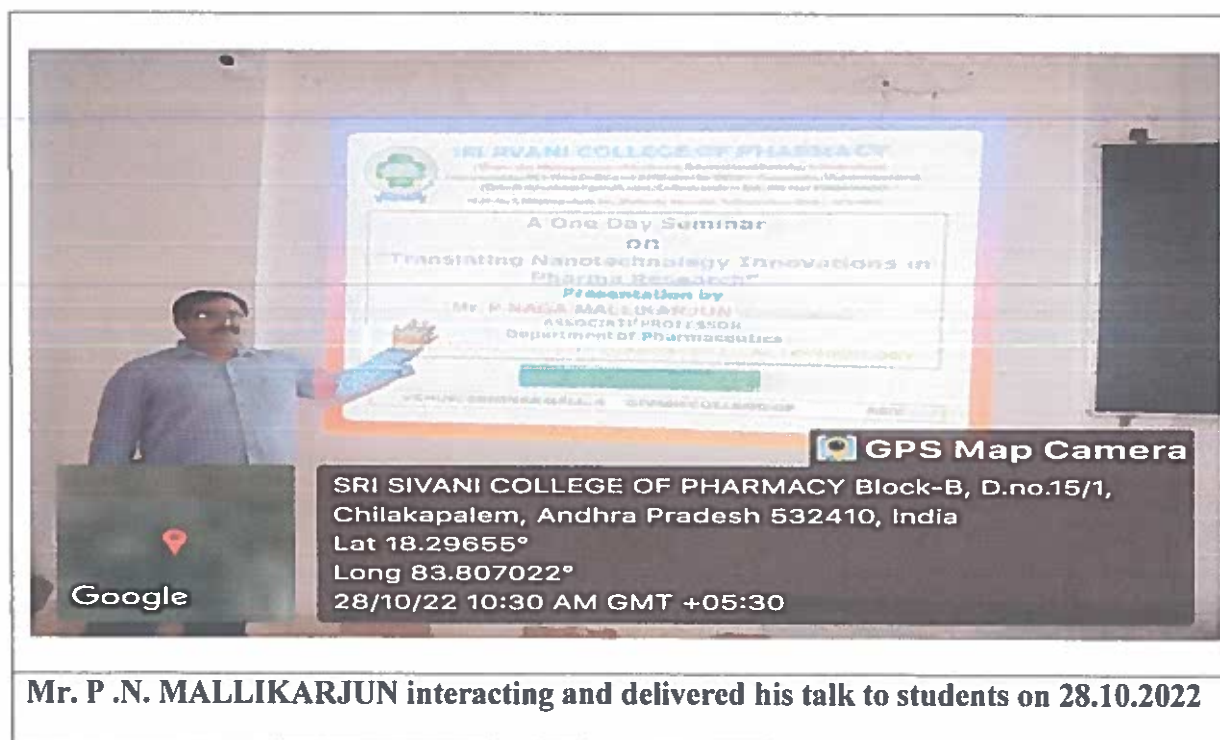

- Educate on nanotech's role in pharmaceuticals.
- Foster interdisciplinary collaboration.
- Address translational challenges.
- Enhance regulatory awareness.
- Ignite innovative thinking.
- Facilitate valuable networking.

OUTCOMES OF PROGRAMME

By the end of the seminar, participants will be able to:

- **In-depth Understanding:** Attendees will gain a profound understanding of the diverse applications of nanotechnology in the pharmaceutical industry, spanning drug delivery, diagnostics, imaging, and personalized medicine.
- **Knowledge Exchange:** The seminar will promote the exchange of knowledge and ideas between researchers, practitioners, and industry experts, fostering collaborative opportunities.
- **Bridging Research and Industry:** Attendees will learn how to bridge the gap between cutting-edge nanotechnology research and its practical implementation in pharmaceutical product development.
- **Regulatory Insight:** Discussions on regulatory challenges and guidelines will equip participants with the knowledge needed to navigate the regulatory landscape for nanotechnology-based pharmaceuticals.
- **Innovation Catalyst:** The seminar will inspire attendees to identify novel applications and innovative solutions, potentially accelerating the development of safer and more effective pharmaceuticals.
- **Networking Platform:** Participants will have the opportunity to establish valuable connections with peers, academics, and professionals, potentially leading to future research collaborations and partnerships.

Overall, the seminar explores nanotechnology's impact on pharmaceuticals. Engage with experts, dissect challenges, and uncover regulatory pathways. Ignite collaboration, innovation, and practical translation for cutting-edge advancements. Connect with peers, shaping the future of nanotech in pharma.

OBJECTIVE OF THE PROGRAM

The objective of the one-day seminar on "Translating Nanotechnology Innovations in Pharma Research" is to facilitate a comprehensive understanding of the applications of nanotechnology in pharmaceutical research and to explore the potential for translating these innovations into practical solutions. The seminar aims to:

- Educate on nanotech's role in pharmaceuticals.
- Foster interdisciplinary collaboration.
- Address translational challenges.
- Enhance regulatory awareness.
- Ignite innovative thinking.
- Facilitate valuable networking.

OBJECTIVE OF THE PROGRAMME

The objective of the one-day seminar on Intellectual Property Rights (IPR) Strategies in Pharma and Biotech is to provide participants with a comprehensive understanding of the importance of intellectual property in the pharmaceutical and biotechnology industries. The seminar aims to equip attendees with knowledge and strategies to protect their innovations, navigate the complex landscape of patents and trademarks, and leverage IPR to advance their business goals.

Dr.K. Pavani delivered a topic on IPR Strategies in Pharma and Biotech

Topics Covered:

- Introduction to Intellectual Property
- Types of Intellectual Property
- Patent Strategies: Trademark Protection
- IPR in Drug Discovery and Development
- Licensing and Collaborations
- IPR Challenges and Regulatory Compliance
- Global IPR Strategies:

OUTCOMES OF PROGRAMME

- IPR Awareness: Increase participants' awareness and understanding of the significance of intellectual property rights in the pharmaceutical and biotech industries.
- Protection of Innovations: Equip attendees with the knowledge and strategies to protect their innovative products, technologies, and processes through patents, trademarks, and other IP mechanisms.
- IPR Management: Provide insights into effective management and maintenance of intellectual property portfolios, including strategies for portfolio optimization.
- Business Growth: Enable participants to leverage IPR as a strategic tool for business growth, including licensing, technology transfer, and collaboration opportunities.
- Risk Mitigation: Help participants identify and mitigate IPR-related risks, including the threat of patent infringement and regulatory non-compliance.

OBJECTIVE OF THE PROGRAMME

The objective of the one-day seminar, "From Ideas to Protection: Navigating the Basics of IPR (Intellectual Property Rights)," is to provide participants with foundational knowledge and practical insights into the world of intellectual property. This seminar is designed for individuals new to the concept of IPR and aims to equip them with a fundamental understanding of how to protect their creative and innovative ideas.

Keynote Speaker: Dr.B.Padmasri

Topics Covered:

- Introduction to Intellectual Property
- Types of Intellectual Property
- Patents
- Trademarks
- Copyrights
- Trade Secrets
- IPR Enforcement

OUTCOMES OF PROGRAMME

- ❖ **IPR Awareness:** Increase participants' awareness and understanding of the concept and significance of intellectual property rights in various fields.
- ❖ **Basic Knowledge:** Provide participants with fundamental knowledge about the different types of intellectual property and their respective purposes.

- ❖ Protection Understanding: Equip attendees with an understanding of how to protect their creative and innovative ideas and works through patents, trademarks, copyrights, and trade secrets.
- ❖ IPR Application: Enable participants to make informed decisions about when and how to apply for intellectual property protection.
- ❖ Risk Mitigation: Help participants identify potential risks related to intellectual property and provide strategies for mitigating those risks.
- ❖ Compliance and Ethics: Promote ethical and compliant practices related to intellectual property rights, emphasizing the importance of respecting the rights of others.

By the end of the seminar, participants should have a solid grasp of the basics of intellectual property, empowering them to take the necessary steps to protect their ideas and creations while respecting the intellectual property rights of others.
